

ROBO TIC SIRTM

ROBO GOAL INDIA 2026

ROBO SOCCER CHAMPIONSHIP

BUILD. COMPETE. INNOVATE.

A live robotics competition for students where engineering meets the energy, tactics and spectacle of football.

EVENT WINDOW

• 20 SEP 2026 • 26-27 SEP 2026

IN NOIDA

**DOME AREA SPECTRUM MALL PHASE 2,
SECTOR-75, 201316**

Why students show up.

From watching football to engineering the game—robot soccer gives students an immediate reason to care.

01 VISIBLE ENGINEERING

Students see code, electronics and mechanical choices become movement and strategy.

02 SPORT + TECHNOLOGY

Football creates familiarity while robotics adds a futuristic layer.

03 TEAM-BASED LEARNING

Mechanical, electronics, programming and strategy roles naturally divide across a team.

04 REAL COMPETITION

Pressure creates a reason to test, fail, tune and improve.

Students build, compete, and remember the experience.

A strong sponsor is not simply visible beside the arena — the sponsor becomes part of the student experience.

We have already been building the culture of robotics.

Supplied photographs show previous robotics competitions, showcases, demonstrations, awards and

02/THE SPONSOR ROLE

Not just a logo beside the arena.

A sponsor becomes part of the student experience — visible in the competition, useful in the activation and remembered through the moments students share.

STEM
IN
ACTION

Choose your level of visibility.

The structure is built around practical visibility, audience access and high-attention moments.

BRONZE	SILVER	GOLD	PLATINUM / TITLE
₹10,000	₹20,000	₹40,000	₹60,000
Main venue banners	All Bronze perks	All Silver perks	Title status: "Powered By [Brand]"
Printed flyers & entry posters	Official event website logo + direct link	Logo on participant & winner certificates	10–15 min keynote / prize distribution slot
1 roll-up standee space	Desk/stall or flyer distribution	Dedicated Instagram post/reel shoutout + tag	8–10 VIP passes
2 general event passes	4 event passes	6 VIP passes	Collaborative Instagram Reel

Packages can be customized around a sponsor's product, campaign or audience objective.

04 / THE INVITATION

Become part of the Future of Robotics.

We are inviting technology companies, education brands, electronics companies, consumer brands, local businesses and organizations to partner with Robo Goal India 2026.

WHAT YOUR BRAND CAN GAIN

- Youth-facing brand visibility
- Direct student engagement
- Product experience opportunities
- Shareable event content
- Association with hands-on STEM learning

WHAT WE BUILD TOGETHER

- A memorable robotics competition
- Real student participation
- High-attention match moments
- Sponsor-led activations
- A stronger robotics ecosystem
